

ELECTROLYSIS OVERVIEW

ELECTROLYSIS OVERVIEW

Patients of all skin tones are ideal candidates.

Hair of any color can be treated effectively.

All areas of the body can be treated including the eyebrows.

Does it hurt? Most patients find the treatment tolerable. Sensation can be described as a pin prick.

Downtime: None.

Electrolysis is performed by trained, licensed Cosmetic Therapists at The Laser Loft.

BEFORE TREATMENT

Shave or clip hair in the area only. No waxing, tweezing, or threading the area being treated.

Minimal stubble is required in order to determine the direction of hair growth.

POST TREATMENT

Mild redness and swelling can last up to 2 hours.

Keep the area clean with alcohol or witch hazel.

Avoid touching the area for at least 24 hours post treatment.

SCHEDULE

The number of treatments needed varies by person.

Treatments are needed weekly or bi-weekly depending on severity of condition.

COST

Treatments are affordable.

Detailed pricing will be provided during your FREE consultation. *Schedule it today!*
